in Linkedin   🐙 Github   🌐 Portfolio

CERTIFICATIONS

✱ **Jr. Penetration Tester – TryHackMe**
— *Penentration testing*   *Verify*

✱ **PCEP Certified Python Programmer**
— *Python institute*   *Verify*

✱ **APISec Fundamentals**
— *Apisec university*   *Verify*

✱ **Foundation of Cybersecurity**
— *Coursera*   *Verify*

SKILLS

✓ **OS:** Linux, Windows

✓ **Programming Languages:** Python, Bash

✓ **Pentesting & Security Tools:** Kali Linux, Nmap, Burp Suite, Metasploit, Wireshark, Hydra, Gobuster, SQLmap, Nikto

✓ **Cybersecurity Knowledge:** Vulnerability Assessment , web/app/network pentesting,OSINT, CTF, Bug Bounty Hunting

✓ **Networking & OS:** TCP/IP, OSI Model, Windows Administration

✓ **Web Development:** HTML, CSS, JavaScript, Bootstrap

✓ **Other Tools:** Arduino, IoT, Automation

EXTRACURRICULAR ACTIVITIES

• **STI Madani Event Workshop** — *Malaysia Education Ministry*

• **IT Content Creator** — *DarkPacket*

• **CTF Player**— *Cybertalents ,PicoCTF*

• **Mentor & Instructor** — *NeuralNux*

• **Contributor** — *3ZERO Club*

• **CTO** — *Neural Nux*

• **Cyber Intern** — *CodeAlpha ,DEN*

• **Volunteer** — *STI Madani, PLUS Malaysia workshop*

SUMMARY

Dedicated and detail-oriented Computer Science student specializing in Cybersecurity, with hands-on experience in penetration testing and vulnerability assessment . Skilled in identifying security gaps, hardening infrastructure. Experienced with security tools, threat and continuously learning to improve skills focusing on offensive security .

EXPERIENCE

• **Cybersecurity Intern**   *Jul – Sep 2025*
Digital Empowerment Network (Remote)
Focus: Penetration testing, digital forensics, malware analysis, honeypots.
Highlights: Hands-on vulnerability assessment, threat detection, and incident response.

• **Bug Bounty Hunter** — Independent   *Aug 2025 – Present*
Discovered and responsibly reported security vulnerabilities including rate limiting, IDOR, and misconfigurations.

CTF COMPETITIONS

• **CTF Competition 2026** — Albukhary International University (AIU)
On-site   *7 Jan 2026*
Winner (1st place) among 10 teams; scored 210 points and awarded RM 1,500.

• **CTF Hackathon v3.0** — Curtin University Malaysia
Online (24-hour)   *6–7 Dec 2025*
1st place among AIU teams; 31st nationwide with 5,476 points; solved web, crypto, forensics, and networking challenges.

EDUCATION

Bachelor of Computer Science (Honours) — Cybersecurity
🏛 **Albukhary International University**, Kedah   *Expected Grad.: Oct 2026*

CGPA: 3.58 / 4.00 (Dean's List Awards in 5 Semesters)
Relevant Coursework: VAPT, Operating System, Risk Management, Cryptography, Digital Forencis, Softwere Testing, Secure Softwere Development , Software Engineering, DBMS, Networking, AI

PROJECTS

• **Albukhary-zero-hunger-platform**
Donation-driven web solution with secure roles, integrated payments, and real-time tracking for efficient food aid distribution.   `[GitHub]`

• **Hospital-Management-System**
PHP/MySQL solution managing patient registration, appointments, doctor allocation, medical history, and billing .   `[GitHub]`

• **Cyber Awareness Simulation**
Created an Interactive cybersecurity awareness training platform educating users about common cyber threats and online safety best practices through engaging simulation modules.   `[GitHub]`

• **SecureCrop- Soil Data Secure Crop Recommendation System**
Implemented an Intelligent crop recommendation system that analyzes soil data to provide secure, data-driven agricultural insights .   `[GitHub]`
